Your Action Plan

Prioritized steps to improve your SEO score

1 H1 Heading High

 15-30 min

Missing H1 tag

HOW TO FIX

Add a single H1 tag containing your primary keyword. It should be visible and meaningful.

2 Internal Links Medium

 15-30 min

No internal links found

3 Content Quality ⚡ Medium

🕒 15-30 min

Very thin content

HOW TO FIX

Add substantial, valuable content. Aim for at least 300+ words for informational pages.

4 Meta Description

🕒 5-15 min

Meta description too long (174 characters, will be truncated)

HOW TO FIX

Trim to 150-160 characters. Front-load the most compelling information.

5 Heading Hierarchy

🕒 5-15 min

Heading issues: missing H1

HOW TO FIX

Use headings in order (H1 → H2 → H3). Don't skip levels. Use only one H1 per page.

6 External Links

🕒 5-15 min

No external links found

HOW TO FIX

Consider adding relevant external links to authoritative sources when appropriate.

7 Images

🕒 5-15 min

No images detected on page

HOW TO FIX

Add relevant, high-quality images with descriptive alt text.

8 Schema Markup

🕒 5-15 min

Missing structured data

HOW TO FIX

Add JSON-LD schema for Organization, WebSite, or relevant content type.

9 Twitter Cards

🕒 5-15 min

Incomplete Twitter Cards (missing: twitter:title, twitter:description)

HOW TO FIX

Add the missing tags: twitter:title, twitter:description

10 Canonical URL

🕒 5-15 min

Missing canonical URL

HOW TO FIX

Add `<link rel="canonical" href="https://exact-screenshot-dusky.vercel.app/" />` to your `<head>` section.

**HOW TO FIX**

Create a sitemap.xml and submit it to Google Search Console.

**12 Favicon**

5-15 min

No favicon detected

HOW TO FIX

Add a favicon with: `<link rel="icon" href="/favicon.ico">` or `<link rel="icon" type="image/png" href="/favicon.png">`

Pro Tip

Focus on critical issues first. They have the biggest impact on your SEO score. After fixing critical issues, work through warnings to further optimize your site.
